AT THE HOME OF THE HUMAN SAFETY NET
105, ST. MARK'S PLACE - VENICE

Despite ongoing efforts, **humanity is on the verge of crossing the seventh of nine planetary boundaries - and the trend is worsening. Transforming how we live is no longer a choice; it's essential. This change starts with a radical shift in collective awareness.**

The **"3rd SUMUS Forum of Unlimited Possibilities"** embraces a bold vision: **to unite diverse forms of intelligence**, expanding human awareness, and fostering a world in harmony with all living systems. The Forum will gather **human** (empowered by the intelligence of the heart), **natural, cosmic, ancestral, collective, and artificial intelligences.**

Each year, the Forum amplifies the voices of **pioneers whose groundbreaking expertise fosters new synergies.**

These individuals' research, vision, and lived experiences invite us to reimagine the boundaries of what is hopeful for humanity and the planet.

In a world clouded by growing uncertainty, **SUMUS is committed to making Venice the beacon of a new societal model**—one of awakened consciousness, where all forms of intelligence converge into nature-based solutions. Here, regeneration is not a distant goal but a way of being: respectful, inclusive, poetic, and empowered by nature.

Rooted in its deep connection to water, its rich cultural heritage, and its ecological vulnerability, **Venice is the ideal hub for this emerging paradigm. Grounded in wisdom, biomimicry and eco-regeneration**, the city can become a living model where education, economy, science, and art evolve in symbiosis with Nature.

Venice is meant to be a **pilot city** where scientists, artists, indigenous leaders, innovators, decision-makers, and citizens co-create solutions and participate in restorations of natural ecosystems, paving the way toward a more **heartfelt, peaceful and regenerative future, full of Life.**

This Forum will end with the presentation of **Venice Aqua Valley: a concrete example of combining intelligences.**

Join us in Venice on **November 19th and 20th 2025**, for two days of transformative dialogue, shared wisdom, visionary collaborations.

It's time to shape the future of our interconnected world.

It's time for Italian and international pioneers to work together.

It's time for each of us to rise and step forward!
