INNER DEVELOPMENT GOALS

18:00 TO 20:00

20 PARTICIPANTS
MAX

WHAT YOU WILL FIND IN THE WORKSHOP

In the first part of the session, we'll explore how the **INNER VALUES INCUBATOR** - www.ivimodel.com - a dynamic self-assessment tool that combines personal values, inner development, and societal engagement - can illuminate the inner drivers of our choices and show how cultivating them can lead to wiser, more systemic decision-making.

We will then shift gears to show—through vivid, real-life examples—how automatic mental shortcuts, our cognitive biases, subtly yet powerfully shape the decisions we make. Yet AI systems such as **MILEVA** - www.mileva-ai.ch, designed to recognise and account for these biases, open the way for us to make choices with greater objectivity and a stronger sense of consciousness.

In closing, we will invite **MILEVA AI** to test the different inner values and ask a crucial question together: which ones must come first to create the conditions for the **VENICE AQUA VALLEY** project to truly succeed?

AUDIENCE IVI:

All citizens interested in discovering their priority values, the progression of their inner development skills and the way these align with their intended future actions. Participants will be offered the opportunity to take the free IVI assessment • *Participants are invited to take the free IVI assessment before the session at www.ivimodel.com.*

AUDIENCE MILEVA:

Everyone, especially if you are interested in artificial intelligence or want to see it in action, and even more so if you are involved in the Aqua Valley project or want to participate in it. Participants will receive a document summarising Mileva's analysis on personal values involved in the Aqua Valley project.
